

Block Play Encouraging Programme

At **Kiddoblocks** children are exposed to great quantity and variety of blocks.

The open ended nature of block play naturally lends itself to playing a key role in dramatic play activities. Creating a zoo, building a space ship or designing a castle are ideas your preschooler can bring to life using blocks.

At **Kiddoblocks** we guide and encourage children to carry, stack, bridge, pile and balance the blocks to achieve their goal, as well as influence expansion of their imagination.

Block Play Encouraging Programme

Block play provides one of the most valuable learning experiences for children. Block play stimulates learning in all domains of development, intellectual, physical and social - emotional and language.

Children learn best through hands-on experiences and block play is a valuable part of cognitive development in preschool.

As children build they are using and developing:

- Fine motor skills and hand eye co-ordination
- Thinking skills, such as planning and problem solving
- Creative thinking through constructing their own ideas
- Imagination as they play pretend and represent their own life experiences
- Descriptive vocabulary
- Understanding of mathematical concepts related to colour, number, size, sorting, patterning, symmetry and balance
- Important life and learning skills, such as perseverance in the face of construction challenges
- Social skills when working together with others

Blocks We Use:

- Lego Duplo Educational Products
- Magna Tiles
- Melissa and Dough Construction Set
- Squiz
- Magneatos
- And many more

Our all products are Original Branded Toys.
